

COILMASTER LIMITED WARRANTY

[SEARCH](#)[SHARE](#)[PRINT](#)

Seller warrants to the original purchaser against defect in materials and workmanship in products which it manufactures for one (1) year from date of shipment, when properly installed and operated under normal use. The warranty does not apply to products that have been subject to misuse (including use in a manner inconsistent with the design of the product), abuse, neglect, accident or improper installation or maintenance, internal or external corrosion, rupture due to freezing, thermal shock, operation at pressures and temperatures exceeding those specified, water hammer, or to products that have been altered or repaired by anyone other than Coilmaster or its authorized representative.

This guarantee does not include any labor or other charges outside of the Seller's factory for replacement or repair of defective product. Warranty shall not be construed to cover the cost of removal or installation of product.

Seller's only liabilities under this warranty, or otherwise, shall be the repair or replacement (at Seller's options) of non-conforming goods or parts, not to exceed the original cost of the product. Seller shall issue a Returned Material Authorization and Buyer shall return the product at Buyer's expense. Seller will determine the cause of the failure and whether the warranty applies. Seller assumes no liability for incidental or consequential damages such as, but not limited to, injury to person or property, or lost profits.

This guarantee supersedes and is in lieu of any and all other warranties by law or custom, either expressed or implied including, but not limited by this enumeration, any guarantee as to quality or fitness, for any particular purpose, except as set forth above.

The Buyer is solely responsible for determining whether a product purchased from Seller is suitable for the Customer's needs or applications. Although Seller may be asked to provide opinions or other information about its product(s) in a proposed application or make opinions or other information available from time to time, Seller will not, by responding to requests for or otherwise providing opinions or other information, assume any responsibility for the design or suitability of the Customer's product(s) in the proposed application.

No person, agent, or dealer is authorized to give any warranties on behalf of Seller or to assume for Seller any other liability in connection with any of the Seller's products.
