

960 RESIDENTIAL INSIDE LIFT STATION

Pump

Heavy-duty 2" sewage ejectors, capable of pumping over 100 gallons per minute, are designed for over 40-50 years of maintenance-free operation.

Motor

1/2 H.P., 115V, totally enclosed fan cooled, double capacitor starts with automatic resetting overload protection.

Basin

Hot-dipped galvanized Steel fitted to receive a drain tile and a filter plate for a seepage bed.

Check Valve

Soft acting, bronze seat readily accessible under a removable cover. The check valves shall allow flow by gravity when the pump is temporarily inoperable due to power failure.

Cleanout

Large cleanout opening with a gasketed cover.

Liquid Level Control

Nema-1 float switch with Stainless Steel float ball and float rod.
