| 1 | <p>Hydro Multi-E 2 CRE 10-6</p>  <p>Product photo could vary from the actual product</p> <p>Product No.: On request</p> <p>A GRUNDFOS Hydro Multi-E booster set consists of 2 to 4 speed controlled CR pumps (CRE pumps). Each CRE pump is equipped with an integrated variable frequency drive motor (MLE motor).</p> <ul style="list-style-type: none"> - Hydro Multi-E maintains constant pressure through continuous adjustment of the speed of the pumps. - The system performance is adapted to the demand through cutting in/out the required number of pumps and through parallel control of the pumps in operation. - Pump cascade control is based on first on first off to ensure equal pump wear. - All pumps in operation will run at equal speed. <p>GRUNDFOS Hydro Multi-E booster sets are designed for pressure boosting of clean water in residential/commercial building, municipal, industrial, and irrigation applications.</p> <p>The control of the Hydro Multi-E system is accomplished through Proportional-Integral control via a multi-pump controller card mounted in one of the MLE motors. The Hydro Multi-E system start/stop and set-point adjustment is possible through the use of two push buttons located on the MLE motor or with the R100 remote controller.</p> <p>The system consists of these parts:</p> <ul style="list-style-type: none"> - Suction manifold and discharge manifold made of 316 stainless steel. - Base frame made of 304 stainless steel. - One non-return valve (check valve), and two isolating valves for each pump. - Adapter with isolating valve for connection diaphragm tank. - Pressure gauge on suction and discharge manifolds. - Pressure transducer on discharge manifold. - Dry-running protection is standard with use of differential pressure switch on suction manifold. - A service disconnect switch located in a NEMA 3R enclosure is mounted to each pump for ease of service. - Grundfos bus communication with optional gateway connections for LON, Modbus, Profibus, BACnet, GSM <p>When delivered, the GRUNDFOS Hydro Multi-E booster set is factory tested and ready for operation.</p> <p>Diaphragm tank is available as an accessory.</p> <p>Liquid:</p> |
