COMING SOON!

Standard Boiler Equipment Includes:

- Vitodens 200-W boiler
- Vitotronic 300-K, MW2C cascade control
- LON communication module
- LON Cable
- Terminal End Resistor
- Circulation Pumps
- Neutralization System
- Manifold
- CSD-1 kit
- Low loss header
- Fittings 1-3
- Y-piece and adaptor as needed
- Installation Fittings with 30 psig pressure relief valve
- Double Pipe Adaptors
- Outdoor temperature sensor
- DHW sensor
- LLH sensor
- Fill/drain valves
- Mounting hardware
- Gas pressure switch (for B2HA-399 and B2HA-530)

 Internet Capable when used with Vitoconnect

 **Vitaguide App**
Vitaguide Mobile is a portable commissioning, guided spare parts replacement, and handheld service tool that can be downloaded on IOS and Android operating systems

 **Vitaguide Remote Service Web Application**
Vitaguide Remote Service Web Application is a connected user interface that utilizes an online (website) application to access boiler data points.

See Digital Services (pg. 24) for more information on the Viessmann Vitaguide Applications.

Multiple Boiler with Manifold					
# boilers in each package	B2HA 285	B2HA 311	B2HA 352	B2HA 399	B2HA 530
2	B2HAH15 26,393.-	B2HAH23 27,071.-	B2HAH31 28,189.-	B2HAB79 31,599.-	B2HAB87 35,296.-
3	B2HAH16 36,983.-	B2HAH24 38,318.-	B2HAH32 39,992.-	B2HAB80 44,989.-	B2HAB88 50,467.-
4 in-line	B2HAH17 49,905.-	B2HAH25 51,265.-	B2HAH33 53,780.-	B2HAB81 60,469.-	B2HAB89 68,758.-
4 back to back	B2HAH18 53,072.-	B2HAH26 54,430.-	B2HAH34 56,948.-	B2HAB82 63,075.-	B2HAB90 68,865.-
5	B2HAH19 63,947.-	B2HAH27 65,645.-	B2HAH35 68,457.-	B2HAB83 76,132.-	B2HAB91 84,761.-
6	B2HAH20 74,539.-	B2HAH28 76,598.-	B2HAH36 79,265.-	B2HAB84 89,224.-	B2HAB92 100,830.-

Standard Equipment Includes:

- Vitodens 200-W boiler
- Vitotronic 300-K, MW2C cascade control
- LON communication module
- LON Cable
- Terminal End Resistor
- Installation Fittings with 30 psig pressure relief valve
- Double Pipe Adaptors
- Outdoor temperature sensor
- DHW sensor
- LLH sensor
- Fill/drain valves
- Mounting hardware
- Gas pressure switch (for B2HA-399 and B2HA-530)

*Weight for complete rack systems;
Part numbers B2HAH15-B2HAH38 and B2HAB79- B2HAB94

Vitodens 200-W B2HA/B2HB Boiler Accessories	
Vitoconnect OPTO2 To connect Vitodens 200, 222, and Vitocrossal CU3A boilers to wifi for use with ViCare App	7745 434 495.-
Vitotronic 300-K, MW2C Series Color Touch Screen wall-mounted, digital indoor/outdoor master boiler and heating system control for up to 8 Vitodens 200-W boilers. Includes DHW sensor and strap-on supply sensor for low-loss header (NTC 10 kOhm), as well as electric circuit board for the 2. and 3. heating circuit with mixing valve. Capable of communication with Vitodens 200-W via KM-BUS protocol. Also capable of communication with Vitotronic 200-H via LON-BUS if equipped with optional LON communication module.	7727 574 2,433.-
KMK Communication Module electronic circuit board enabling data communication via Viessmann KMK system BUS between Vitotronic 300-K and Vitodens 200-W. Order 1 per Vitodens 200-W boiler.	7441 586 177.-
KM-BUS Distributor to connect between 2 and 9 additional devices to the KM-BUS	7133 393 141.-
Vitogate 300, BN/MB Series (Wall-mounted) compact wall-mount unit 120V/ 60Hz, 1A, with 6.5' cord and 120V pkg W 6" H 8" D 8"	7559 706 1,791.-
LON Connecting Cable, 23 ft for data exchange between controls	7143 495 70.-
LON Extension Jack to extend LON connecting cable	7143 496 60.-
LON Connecting Terminal (RJ, 2 pieces) to connect to field cabling via wall-mounted boxes	7171 784 115.-
LON Terminal Resistor (2 pieces) To terminate the system BUS, a resistor must be installed on each free end	7143 497 20.-
LON Communication Module electronic circuit board enabling data communication via Viessmann LON system BUS. For installation inside Vitodens 200-W.	7179 113 421.-
Solar Module SM1 Wall mounted extension module with electronic differential control for dual coil DHW production and to supplement space heating using solar collectors when used with oil/gas fired heating boilers. To be used instead of SCU Solar Controller.	7533 427 606.-
Immersion Sensor for Solar Module SM1 Order if; circulation management in systems with 2 storage tanks, return flow management between boiler and hot water buffer tank and/or supplying heat to additional accessories is required.	7438 702 141.-
Extension Module AM1 Wall mounted extension module controls up to 2 of the following circulation pumps: DHW Recirculation pump, DHW production pump, heating circuit pump for the circuit without mixing valve, and/or 120 V/ 60Hz, 4A in CSA housing, with 6.5' cord and 120V plug	7533 425 435.-
Circulation Pump (UPS 26-99) ¹ Compatible with B2HB 160 or 199 or B2HA 285, 311, or 352 Grundfos 3-speed, flanged housing circulation pump, 115V. Boiler Delta T: 40° F	7248 585 430.-
Circulation Pump (UPS 26-150) ¹ Compatible with B2HA 399 or 530 Grundfos 3-speed, flanged housing circulation pump, 115V. Boiler Delta T: 40° F	7441 596 695.-
Flange Set, 1 ^{1/4} for circulation pumps Works with Grundfos UPS 15-58, UPS 26-99, or UPS 26-150	9544 425 40.-
Circulation Pump Taco 0013 (115/60/1) ¹ Compatible with B2HB 160 or 199 or B2HA 285, 311, or 352	7663 914 489.-
Circulation Pump Taco 2400 (single speed) ¹ Compatible with B2HA 399 or 530	7663 915 554.-
LLH Temperature Sensor (immersion) to measure the temperature inside a low-loss header (included with boiler)	7179 488 160.-
DHW Temperature Sensor to measure the temperature inside a domestic hot water storage tank (included with boiler)	7179 114 160.-

Select based upon system pressure drop and flow rate requirement- See Vitodens Technical Data Manual.

Vitodens 200-W B2HA/B2HB Boiler Accessories (Continued)	
Neutralization Unit (300-6,000 MBH) to neutralize acidic condensate, includes granular neutralization pellets	7740 947 315.-
Neutralization Granulate Bin of 31.5 lbs	7740 949 103.-
Vitotrol 200A Remote control for a single heating circuit. To program daytime temperature and operating program with party and energy saving button and with room temperature sensor for room-dependent activation (for heating circuit with mixing valve only).	7438 363 222.-
Vitotrol 300A Remote Control for a single heating circuit to program daytime and nighttime temperature, DHW temperature, operating and holiday program, party and energy-saving features, switching times for heating circuit, DHW tank, and recirculation pump. With illuminated display and text prompts. With room temperature sensor for room-dependent activation (for heating circuit with mixing valve only).	7571 231 373.-
Room Temperature Sensor (wall mount 10 kOhm) Use if the Vitotrol 300A cannot be installed in a centralized location to measure room temp.	7438 537 145.-
Wall Mount Base to reposition the programming unit outside of the Vitotronic. Includes mounting base, blindcover and connection cable	7299 408 157.-
Mixing Valve Extension Kit Compatible with Viessmann 3-way or Viessmann 4-way mixing valve ONLY. Mixing Valve Motor, 120/1/60 NTC. Module includes supply temperature sensor (strap-on).	7509 472 297.-
Power Supply Adaptor Required for each mixing valve motor 120/1/60	7134 560 226.-

Viessmann 3- way Mixing Valves	¾"	1"	1¼"	1½"	2"
	7134 742 366.-	7134 743 389.-	7134 744 438.-	7134 745 490.-	7134 746 578.-

Connection Set to install a field supplied 90° elbow set. 4x4" ANSI flanges with welded on 4" NPT coupling	7537 723 943.-
--	-------------------

Manifold and Y Piece Insulation	Insulation for:	2- boiler manifold	3-boiler manifold	Y-Piece
		7537 712 867.-	7537 713 1,462.-	7537 722 425.-

LON Connecting Terminal (RJ, 2 pieces) to connect to field cabling via wall-mounted boxes	7171 784 115.-
LON Terminal Resistor (2 pieces) To terminate the system BUS, a resistor must be installed on each free end	7143 497 20.-
LON Communication Module electronic circuit board enabling data communication via Viessmann LON system BUS. For installation inside Vitodens 200-W.	7179 113 421.-
Vitogate 300 BN/MB Series (Wall-mounted) Gateway designed to integrate Vitotronic controls that use the LON communication protocol with Building Management Systems utilizing BACnet or ModBUS communication modules. Configured as compact wall-mount unit. 120V, 60Hz, 1A with 6.5 ft. cord W: 6" H: 6" D: 6"	7559 706 1,791.-
Vitogate 300 BN/MB Series (DIN Rail mounted) Gateway designed to integrate Vitotronic controls that use the LON communication protocol with Building Management Systems utilizing BACnet or ModBUS communication modules. Configured as compact wall-mount unit. 120V, 60Hz, 1A Configured for integration inside Vitocrossal 200 electrical box.	7559 705 1,700.-
Output Module (potential-free contact) For burner status, burner failure, high boiler temp, and external (LWCO) alarm via LON Order 1 per boiler; max: 4	7134 562 821.-
Vacuum Relief Damper CM2 186-311	7544 866 613.-
Vacuum Relief Damper CM2 400-620	7544 867 613.-
Combustion Air Device Fresh air device kit to activate one single fresh air device (1 per boiler for use with Vitotronic 300 GW6B only).	ZK01905 688.-
Common Fresh Air Device Interface If >1 boiler use the common fresh air device. (order 1 unit for 2-4 boilers, 2 units for 5-8 boilers).	7134 604 509.-

Standard Boiler Equipment Includes:

- Floor standing boiler
- Insulation Jacket 1+2
- Cylinder burner (with LP conversion kit)
- Air intake kit
- Vitotronic control
- Electrical box
- Installation Fittings

Optional Boiler Equipment:

9544 343 30 psig PRV, \$166.-
boiler standard working pressure is 75 psig

Boiler options::

Boiler can be shipped assembled or disassembled upon request.

For high altitude installations (5,000-10,000 ft) the input will have an altitude de-ration of 15% for 5,000 ft and 18% for 10,000 ft.

Boiler Accessories					
Danfoss 3-way mixing valves	2 1/2"	3"	4"	5"	6"
Includes mixing valve, actuator and Viessmann #2 sensor	ZK01698 1,384.-	ZK01699 1,579.-	ZK01700 2,124.-	ZK01701 2,111.-	ZK01702 2,674.-
Includes mixing valve, actuator and temperature sensor NTC 10 kOhm	ZK01713 1,420.-	ZK01714 1,615.-	ZK01715 2,160.-	ZK01716 2,147.-	ZK01717 2,710.-
ANSI flanges, bolts, and gaskets are field supplied					
Power Supply Adapter Required for each Danfoss mixing valve for use with Vitotronic 300 GW6B. 24/1/120					7134 559 288.-
Belimo isolation valves	2 1/2"	3"	4"	5"	6"
Include isolation valve with power return actuator	7664 031 2,285.-	7664 032 2,301.-	7664 033 2,381.-	7664 034 3,138.-	7664 035 4,554.-
Power Supply Adapter Required for each Belimo Power return actuator	7134 560 226.-	7134 560 226.-	7134 560 226.-	N/A	N/A
Includes isolation valve with spring return actuator	7664 038 1,310.-	7664 039 1,755.-	7664 040 2,127.-	N/A	N/A
Power Supply Adapter Required for each Belimo spring return actuator	7134 559 288.-	7134 559 288.-	7134 559 288.-	N/A	N/A
Neutralization Unit (300-6,000 MBH) Compatible with all CM2 models to neutralize acidic condensate, includes granular neutralization pellets					7740 947 315.-
Neutralization Granulate Bin of 31.5 lbs					7740 949 103.-
Condensate Siphon Comes standard on all Vitocrossal 200 CM2s. Fits CM2 186 through 620					7824 743 33.-
Vent Damper for CM2 186, 246, and 311 For use with a common vent system. Order 1 per boiler					7594 328 1,422.-
Vent Damper for CM2 400, 500, 620 TX, and 620 For use with a common vent system. Order 1 per boiler					7594 321 1,604.-
Common Supply Sensor Must be included in applications of 2 or more boilers					7832 365 182.-
Extension Module EA1 Wall-mounted extension module whose inputs and outputs enable up to 5 additional functions: boiler setpoint temperature, 1 analog input (0-10V), 3 digital inputs, 1 output contact (potential-free contact)					7533 426 451.-

Boiler Accessories	Part Number & Price				
Vitotronic 300-K, MW2C Series Color Touch Screen wall-mounted, digital indoor/outdoor master boiler and heating system control for up to 8 Vitodens 200-W boilers. Includes DHW sensor and strap-on supply sensor for low-loss header (NTC 10 kOhm), as well as electric circuit board for the 2. and 3. heating circuit with mixing valve.. Capable of communication with Vitodens 200-W via KM-BUS protocol. Also capable of communication with Vitotronic 200-H via LON-BUS if equipped with optional LON communication module.	7727 574 2,433.-				
Mixing Valve Extension Kit Compatible with Viessmann 3-way or Viessmann 4-way mixing valve ONLY. Consisting of Mixing Valve Module (KM-BUS participant, wall mount) and Mixing Valve Motor (120/1/60). Module includes supply temperature sensor (strap-on), plugs for circulation pump and mixing valve motor, KM-BUS cable, and 120V/60Hz 2A in CSA housing with 6.5 ft. cord and 120V plug. Motor includes strap on supply temperature sensor (NTC 10 kOhm). Max: 2 Mixing Valve Extension kits per Vitodens in single boiler applications.	ZK01105 842.-				
Viessmann 3- way Mixing Valves	¾"	1"	1¼"	1½"	2"
	7134 742 366.-	7134 743 389.-	7134 744 438.-	7134 745 490.-	7134 746 578.-
Mixing Valve Motor 120/1/60 for use with mixing valves in multiple CU3A scenarios	7509 472 297.-				
Power Supply Adapter 120/1/60 for use with mixing valves in multiple CU3A scenarios	7134 560 226.-				

Standard Boiler Equipment Includes:

- Vitocrossal 300-W CU3A boiler
- Vitotronic 300-K MW2C cascade control
- LON Cable
- LON Card
- Neutralization system

Internet Capable when used with Vitoconnect

VitoGuide App
VitoGuide Mobile is a portable commissioning, guided spare parts replacement, and handheld service tool that can be downloaded on IOS and Android operating systems

VitoGuide Remote Service Web Application
VitoGuide Remote Service Web Application is a connected user interface that utilizes an online (website) application to access boiler data points.

See Digital Services (pg. 24) for more information on the Viessmann VitoGuide Applications.

Boiler Accessories	
Sensor #2 (supply, strap-on) Ni 500 for use with mixing valves in multiple CU3A scenarios	7183 288 146.-
LON Connecting Cable, 23 ft for data exchange between controls	7143 495 70.-
LON Extension Jack to extend LON connecting cable	7143 496 60.-
LON Connecting Terminal (RJ, 2 pieces) to connect to field cabling via wall-mounted boxes	7171 784 115.-
LON Terminal Resistor (2 pieces) To terminate the system BUS, a resistor must be installed on each free end	Standard Equipment
LON Communication Module Electronic circuit board enabling data communication via Viessmann LON system BUS. For installation inside Vitodens 200-W.	Standard Equipment
LON Communication Module Standard equipment-included with boiler electronic circuit board enabling data communication via Viessmann LON system BUS. For installation inside a Vitotronic 300-K MW2C	7172 174 423.-
Solar Module SM1 Wall mounted extension module with electronic differential control for dual coil DHW production and to supplement space heating using solar collectors when used with oil/gas fired heating boilers. To be used instead of SCU Solar Controller.	7533 427 606.-
Immersion Sensor for Solar Module SM1 Order if; circulation management in systems with 2 storage tanks, return flow management between boiler and hot water buffer tank and/or supplying heat to additional accessories is required.	7438 702 141.-
Extension Module AM1 Wall mounted extension module controls up to 2 of the following circulation pumps: DHW Recirculation pump, DHW production pump, heating circuit pump for the circuit without mixing valve, and/or 120 V/ 60Hz, 4A in CSA housing, with 6.5' cord and 120V plug	7533 425 435.-
LLH Temperature Sensor (immersion) to measure the temperature inside a low-loss header (included with boiler)	Standard Equipment
Neutralization Unit (< 300 MBH) Compatible with CU3A 94-199 to neutralize acidic condensate, includes granular neutralization pellets	7740 946 93.-
Neutralization Unit (300-6,000 MBH) to neutralize acidic condensate, includes granular neutralization pellets	7740 947 315.-
Neutralization Granulate Package of 2lbs	7740 948 26.-
Neutralization Granulate Bin of 31.5 lbs	7740 949 103.-
Common Vent Condensate Trap (Centrotherm) 1 per boiler required when common venting up to 4 boilers	9679 844 57.-
Vitotrol 200A Remote control for a single heating circuit. To program daytime temperature and operating program with party and energy saving button and with room temperature sensor for room-dependent activation (for heating circuit with mixing valve only).	7438 363 222.-
Vitotrol 300A Remote Control for a single heating circuit to program daytime and nighttime temperature, DHW temperature, operating and holiday program, party and energy-saving features, switching times for heating circuit, DHW tank, and recirculation pump. With illuminated display and text prompts. With room temperature sensor for room-dependent activation (for heating circuit with mixing valve only).	7571 231 373.-
Room Temperature Sensor (wall mount 10 kOhm) Use if the Vitotrol 300A cannot be installed in a centralized location to measure room temp.	7438 537 145.-
Wall Mount Base to reposition the programming unit outside of the Vitotronic. Includes mounting base, blind cover and connection cable	7299 408 157.-
KM-BUS Distributor to connect between 2 and 9 additional devices to the KM-BUS	7133 393 141.-

Vitotrans 300

Commercial Hot Water Generator

Standard Boiler Equipment Includes:

- Indirect fired domestic water unit 240/1/60
- Integrated control
- Installation fittings c/w 150 psig pressure relief valve
- Reliable on demand hot water
- Plate brazed stainless steel heat exchanger(s) with ASME U stamp
- CRN and NSF/ANSI 372
- Double wall heat exchanger with leak detection option available
- Built-in ultrasonic flow sensor
- Quiet performance: Engineered and balanced for quiet operation
- Integrated descaling pump
- BACnet (IP) communication
- Quick access to all components through latched side panels

VD2 series boilers can be compatible with Weishaupt and Riello burners for oil, natural gas, and propane. They can also be used for select dual fuel applications. Please contact your local Viessmann Sales Representative for more details.

Standard Boiler Equipment Includes:

- Floor standing pressure vessel and boiler base with leveling feet
- Supply header
- Safety header with low water cut-off
- Thermometer
- Pressure gauge
- Air vent
- 85 psig pressure relief valve
- Boiler drain valve

Other Required Equipment:

- Vitotronic 100 or Vitronic 300 control
- Weishaupt or Riello burner with gas train (if applicable)

Standard Boiler Equipment Includes:

- Floor standing pressure vessel and boiler base with leveling feet
- Supply and Return header with left and right connections
- Low water cut-off
- Thermometer
- Pressure gauge
- Air vent
- 75 psig pressure relief valve
- Boiler drain valve

Other Required Equipment:

- Vitotronic 100 or Vitronic 300 control
- Weishaupt or Riello burner with gas train (if applicable)
- Low temp protection package

Vitaguide Application

The Vitaguide app is a portable local commissioning, guided spare parts replacement, and handheld service tool that can be downloaded on IOS and Android operating systems. It enables best in class speed, ease, and profitability of commissioning and service functions without sacrificing efficiency and system capability

Local service and maintenance with Vitaguide for optimizing workflow in the Viessmann trade partner's operation. Enhanced professional care for the boiler, including guided spare parts replacement, when connected with the heating contractor.

Vitaguide is an essential part of every Viessmann installer and service technician's tool box. For more information and training, look for training modules at on the Viessmann Academy website.

In addition to the free version, paid-for versions Vitaguide Pro and Vitaguide Premium with additional analysis, remote maintenance and optimizing functions will also be available.

Vitaguide Web Application

The Vitaguide Web Application is a remote service tool for contractors and commercial operators that accesses boiler data points in an intuitive online (website) interface. These data points can be retrieved at Vitaguide.viessmann.com by participating contractors upon receiving owner permission. (In residential applications this is done through ViCare, a homeowner application. See Price List 1 or visit us online for more information regarding the ViCare app).

Participating contractors can provide assistance with scheduling, heating curve adjustments, remote troubleshooting with read and write data point access, and maintenance scheduling. Vitaguide creates extreme accessibility for the contractor and reduces nuisance service trips while maintaining the highest levels of data security for homeowners and building owners.

*In commercial applications Vitaguide Web Application can also be accessed by building operators for maintenance and monitoring of systems in collaboration with a Viessmann service provider.

Visit us online for the most up to date information on new tools, functions, and applications.

I. General Provisions

1. All references to "Viessmann" in this document include Viessmann Manufacturing Company (U.S.) Inc. and any parent, subsidiary, or affiliate. References to "Buyer" include all parents, subsidiaries, or affiliates of the party ordering products or services from Viessmann. All sales of Viessmann products and quotations for Viessmann products are governed by these Terms and Conditions of Sale, Delivery, and Payment (the "Terms"), which shall prevail over any inconsistent terms in Buyer's purchase order or other documents. Additional or different terms and conditions in any way altering or modifying these Terms are expressly objected to and shall not be binding upon Viessmann unless specifically accepted by Viessmann in writing. No modification or alteration of these Terms shall occur by Viessmann's shipment of products following receipt of Buyer's purchase order or other document containing additional, inconsistent, or conflicting terms.

2. Any product purchased from Viessmann in the United States is for resale and use only in the United States. Buyer agrees that it will not resell Viessmann products for use or installation outside of the United States and will take all reasonable and necessary steps to ensure that the Viessmann products are resold only for use and installation in the United States.

II. Plans and Specifications

1. Drawings, specifications and technical data appended to or forming part of a specific sales contract shall at all times remain the property of Viessmann, with all rights reserved and shall not be provided, submitted or disclosed to third parties without the express written consent of Viessmann. Changes, alterations, deletions or additions thereto shall not be binding upon Viessmann unless confirmed in writing by Viessmann.

III. Prices and Quotations

1. Viessmann reserves the right to change, alter, amend or revoke prices and quotes, including prices on websites and in pricelists and catalogs, without notice, and all such prices expire and become invalid unless accepted within 60 calendar days.

2. Prices are, except as otherwise agreed, exclusive of cost of packaging, crating, freight or shipping, federal, state or local taxes in effect on date of delivery. All taxes imposed on sales or shipments will be added to the purchase price and be reimbursed by Buyer. All prices and other terms shall be kept confidential and disclosed only as required by law.

IV. Terms of Payment

1. For all Viessmann products, all invoices or accounts, as the case may be, are due and payable in full without deduction thirty (30) days after invoice date, unless otherwise specifically agreed in writing.

2. Notwithstanding the preceding paragraph, all orders are subject to Viessmann's continuing approval of Buyer's credit. If Buyer's credit is not approved or becomes unsatisfactory to Viessmann then Viessmann, in its sole and absolute discretion, may suspend or cancel performance, or require different payment terms, including but not limited to cash on delivery or in advance of shipment. Viessmann, in its sole and absolute discretion, may apply Buyer's payment to any open charges or sums owed, including interest charges.

3. Holdbacks or deductions of any kind whatsoever without prior written authorization from Viessmann are expressly prohibited. Viessmann shall have rights of setoff and recoupment.

4. Discounts, if any, shall be calculated on the cost of products as per invoice, exclusive of cost of packaging, crating, federal, provincial, state or local rates, tariffs or taxes, where applicable, or other costs or surcharges beyond control of Viessmann.

5. Payments must be made in U.S. dollars by bank check, ACH wire transfer or money order. All costs for dishonor, presentment for payment or collection shall be at the expense of the Buyer.

6. Overdue accounts shall bear interest at the rate stated on the face of the invoice.

V. Delivery of Products

1. Viessmann shall not be liable for delay or default in delivery resulting from any cause beyond its control, including but not limited to governmental action, strikes or other labor issues, fire, damage or destruction of products or facilities, wars, acts of terrorism, manufacturers and/or suppliers shortages, availability or timeliness of transportation, materials or supplies, and acts of God (each a "Force Majeure event"). Upon the occurrence of a Force Majeure event: (a) the time for Viessmann's performance shall be reasonably extended; (b) the purchase price to Viessmann shall be adjusted for any increased costs Viessmann incurs from the Force Majeure event; and (c) Buyer shall not be entitled to any other remedy.

2. In the event of delay of delivery of products caused by the Buyer for any reason whatsoever Viessmann shall be entitled to charge the cost of storage calculated at the rate of one half percent (0.5%) per month upon the cost of products, such calculation commencing one month after delivery of Notice of Readiness for shipment and continuing for each and every month or part thereof thereafter until the delivery of products to the Buyer.

VII. Risk of Property

1. Sales of Viessmann products are made FOB Origin, freight collect or FOB Origin, Freight Prepaid and charged back. The FOB point shall be Viessmann's office or warehouse. Title and risk of loss shall pass to Buyer at the FOB point.

2. Deficiencies or defects in products or part thereof shipped or shipment of wrong products or part thereof shall be endorsed upon the bill of lading and shall be communicated to Viessmann in writing within eight (8) calendar days of arrival at destination. Failing such notification shall be deemed to have accepted the products without recourse.

VIII. Return of Products

1. No products may be returned to Viessmann without prior written authorization.

2. If returns are authorized by Viessmann, products will be accepted as follows:

- (i) Buyer must provide proof of purchase, invoice and/or serial number to receive a Return Products Authorization number from Viessmann. Upon authorization from Viessmann, freight will be prepaid by the buyer.
- (ii) Item and packaging must be new and in saleable condition. Twenty-five percent (25%) restocking charge on product returned after 30 days of purchase.

Viessmann

Appendix 1

(iii) Electronic parts, where factory seal has been broken are not returnable.

(iv) Discontinued products and/or parts are not returnable.

IX. Limitation of Liability

Viessmann's total liability to Buyer for any claim arising under the Terms or from the supply of products or services shall not exceed the purchase price specified on the face of the invoice. VISSMANN SHALL NOT IN ANY EVENT BE LIABLE FOR INDIRECT, SPECIAL, PUNITIVE, CONSEQUENTIAL OR LIQUIDATED DAMAGES OR PENALTIES, INCLUDING CLAIMS FOR LOST REVENUE, PROFITS OR BUSINESS OPPORTUNITIES, EVEN IF VISSMANN HAD OR SHOULD HAVE HAD ANY KNOWLEDGE, ACTUAL OR CONSTRUCTIVE, OF THE POSSIBILITY OF SUCH DAMAGES.

X. Indemnity

Buyer shall and does hereby agree to defend, indemnify and hold Viessmann harmless of and from any and all liability loss, cost, injury, damage, demand and expense (including, without limitation, reasonable attorneys' fees) of any kind whatsoever arising out of, on account of, or in connection with a breach of these Terms, Buyer's negligence or willful misconduct (including that of its employees, contractors and agents), improper installation of the products and/or any use or misuse of the products. This indemnity shall not be affected or terminated by reason of the termination of these Terms or purchase, for any reason, with respect to all or any part of the products.

XI. Warranties

THE WRITTEN LIMITED WARRANTY ACCOMPANYING THE PRODUCTS IS THE EXCLUSIVE WARRANTY APPLICABLE TO THE PURCHASED VISSMANN PRODUCTS. THAT WARRANTY IS GIVEN IN LIEU OF ALL OTHER WARRANTIES WITH RESPECT TO THE PURCHASED VISSMANN PRODUCTS. VISSMANN MAKES NO OTHER WARRANTIES WITH RESPECT THERETO, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. ANY SUCH WARRANTY IMPOSED BY LAW IS LIMITED TO THE PERIOD OF THE LIMITED WARRANTY PROVIDED IN THE LIMITED WARRANTY ACCOMPANYING THE PRODUCTS. NO WARRANTY ARISING BY USAGE OR CUSTOM, OR COURSE OF PERFORMANCE IS GIVEN BY VISSMANN OR SHALL ARISE IN CONNECTION WITH THAT LIMITED WARRANTY. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you in that respect.

XII. Applicable Law and Forum

1. These Terms shall be governed by the law of Rhode Island without regard to its choice of law principles.

2. All disputes based upon or arising out of these Terms or the parties commercial relationship shall be brought before the state or federal courts of the State of Rhode Island, which shall have exclusive jurisdiction over all such disputes. The parties waive any objections to venue in, or the exercise of jurisdiction by, the state and federal courts in Rhode Island.

XIII. Other

1. The invalidity or unenforceability of some or all of these Terms will not affect the validity or enforceability of the other terms. The parties agree to replace any void or unenforceable term with a new term that achieves substantially the same practical and economic effect and is valid and enforceable.

2. Buyer shall pay all of Viessmann's costs of collection, suit or other legal action brought as a result of the commercial relationship between them, including but not limited to attorney's fees and costs, pre-suit through trial and appeal.

Venting Categories for Gas-Fired Boilers

Venting Categories

ASME H

Boiler and pressure vessel built to ASME Sec. IV. American Society of Mechanical Engineers. Applicable in Canada and USA.

AHRI

Air Conditioning, Heating and Refrigeration Institute Listing is issued for gas- and oil-fired boilers rated < 300 MBH which have AFUE values (residential), and also for units > 300 MBH which have combustion efficiency ratings (commercial). Applicable in Canada and USA.

Energy Star Logo Listing.

Issued for oil and gas boilers with < 300 MBH only. Applicable in Canada and USA.

CRN

Canadian Registration Number approval. Issued for Canadian products complying with CSA-B51 standard and the respective "Provincial Boiler and Pressure Vessel Act". Acceptance in all provinces is indicated with a "C". Applicable in Canada only.

NY

New York City approval. Bureau of Air Resources (BAR) for oil boilers greater than 20 GPH. Applicable in NY City only.

Energy Verification

Logo Listing. Issued for products with < 300 MBH. Applicable in Canada only.

CSA

Canadian Standards Association approval. Tests products for compliance to Canadian and American codes and standards. Applicable in Canada and USA.

MASS

Massachusetts State approval. Applicable to gas-fired boilers and indirect-fired domestic hot water tanks only. Applicable in Massachusetts only.

ICC-SRCC Certification

Solar Rating and Certification Corporation.

SCAQMD

South Coast Air Quality Management District.

CEC

California Energy Commission listing. Applicable in California only.

CSA

CSA Low Lead Content Certification Program including US Safe Drinking Water Act, NSF/ANSI 372 as well as other US State requirements. Applicable in Canada and USA.
